10. In the following, we should be able to show success story video right?

11. Why admin portal in the footer?

12. After clicking on Countries in the menu option, <https://www.abroadinquiry.com/countries> this type of page should open. I think we discussed it several time.

In the home page, we wanted to group countries, cause if we show lots of countries, homepage will be very big and user might get annoyed.
