

1. In the home page, the destination group should be change:

Now, download this file and open it on a browser

(https://drive.google.com/file/d/1_nkT5Zp1StV6rmG74ow8XIFDDqJkk7Qs/view?usp=sharing).

There you can see how this portion should be working.

2. Now download this HTML file. It illustrates how our service page should look like. Right now, if I click services in the menu, it is showing portion of home page. We want services page to show full landing page. (made recommendation for home page in a separate file)

Service page downloadable link:
